- 01:11:12 Annetta Alexandridis: Same with me.
- 01:16:48 Paul Ginsparg: when assigning an incomplete, there could be a clickthrough with checkboxes to ensure that faculty member has read and understood the guidelines (yes i know this can be ignored by faculty, but might be worth a shot)
- 01:17:10 Tara Holm (she/her): Reacted to "when assigning an in..." with 👍
- 01:18:55 Keith Obadike: Reacted to "when assigning an in..." with 👍
- 01:19:20 Hadas Ritz: When I assign INC through OLGAA, part of the process involves entering a completion date and what should happen if the missing work is not completed by that date. My understanding is that nothing is ever done with that information. All aspects of the INC process are manual. I think more review is needed for the entire system.
- 01:19:33 Allison Chatrchyan, Cornell: I would suggest clarification/distribution of the requirements and training for faculty. I have had students that have disappeared early in the semester because of a severe mental health crisis...and didn't drop, then showed up.
- 01:21:18 Tara Holm (she/her): Replying to "When I assign INC th..."

It's not quite true that nothing is ever done with that (says a chair who occasionally has to deal with INC when a faculty member is not there to do so). But I don't know how thoroughly it's reviewed at the time of the INC.

- 01:22:19 Hadas Ritz: Reacted to "It's not quite true ..." with 👍
- 01:23:08 Lisa Nishii: @Hadas Ritz Totally agree, and implementation of a more modern tech solution is on many people's wish list!
- 01:25:11 Hadas Ritz: Reacted to "@Hadas Ritz Totally ..." with 👍
- 01:26:13 Allison Chatrchyan, Cornell: Were the items on slide #19 in priority area? (academics highest, etc?)

01:31:30 Tara Holm (she/her): For everyone's information: financial aid is going to be trickier this year with the delays in the federal FAFSA filing. It typically would have opened Oct 1, but hasn't yet opened, nor has an opening date been announced.

01:32:38 Allison Chatrchyan, Cornell: Did the Task Force consider Early Decision and the inequities it could create?

01:36:49 Richard Bensel: The report does not appear to address "legacy" admissions. What proportion of past entering classes have been "legacy" admits? Since these admits have been almost all very upper class students, would it be possible to balance them with "lower-class" admissions in order to achieve some semblance of "class" diversity?

01:38:48 Jill: Any chat comments are appreciated and will be captured and posted online; you are encouraged to raise your zoom hand and articulate your comments and questions. Thank you.

01:46:48 Buz Barstow: Hi Harold, I think you asked my question much more articulately than I could!

01:47:19 Paul Ginsparg: indeed chatGPT will automatically insert a long account including how one's parents never went to college (whether or not applicable)

01:47:48 Buz Barstow: Likewise, feelings of disempowerment are internal, they are intrinsically unverifiable.

01:54:10 Allison Chatrchyan, Cornell: My anecdotal experience from going through the application process, and the media, is that because the number of student applications overall to colleges is increasing (students submitting many more applications due to common app or no requirements of the SAT) that colleges are relying on Early Decision more, to weed out students that are not "really interested" - this is really problematic for those that cannot apply ED to a university because they need to wait to see what financial aid they will receive from many universities. I hope that Cornell will continue to look at this issue..thanks

01:58:27 Avery August: @Allison. The items on slide #9 were not in any particular order, with the exception of academic achievement. Even though we recognize that this may be a given, we felt it was important to emphasize this as a start.

02:09:24 Paul Ginsparg: chris, don't forget Francesca Gino at Harvard (ongoing)

02:16:49 Tara Holm (she/her): Isn't it a bit simplistic to say that Cornell does not pay tax? This website suggests Cornell does pay quite a lot of property tax (on some properties that it owns).
